1. Product Overview

1.1 Introduction

Cervoz Industrial M.2 2230 Embedded Module T425 family is a Solid State Flash Disk product that is in compliance with the M.2 and PCIe Gen3x2 standards. M.2 2230 T425 family fits in any M.2 2230 (B+M) sockets in a PC or motherboard; it can be used for both booting and storage purposes.

T425 family uses SSD grade quality 3D TLC flash memory from the industry leading manufacturer Micron. Cervoz's firmware builds in a powerful ECC algorithm call Low-Density Parity Check (LDPC) decoding to improve data reliability. This product includes various capacities to choose from.

T425 family offers stable performance and reliability; the product family is an ideal choice for an ultra-compact fanless PC that demands exceptional computational capabilities. Moreover, it offers an effective solution for expanding storage capacity when storage falls short.
