Product Specifications for S5600 Series Anti-Static High Temperature Tape

Description

The S5600 Series is a tape designed for high temperature masking applications. Its special non-staining adhesive insures high adhesion and clean stripping. The thickness of the tape ensures excellent conformability on curves and irregular objects. Non-stock sizes are available upon request. Meets decay rate of MIL-B-81705.

Specifications

Thickness	7.0 mils
Adhesion to Steel	35 oz./in.
Elongation	8%
Temperature Range	-32°F to +275°F
Temperature Resistance	275°F for 45 Minutes
Tensile Strength	22 lbs./inch
Roll Length	60 Yards (55 meters)
Core Size	3 inches
Decay Time (seconds)	< 2
Surface Resistivity	3X10E10
Surface Resistivity (Adhesive)	2X10E11

Part Numbers

S5612	1/2" (12 mm)
S5618	3/4" (18 mm)
S5624	1" (24 mm)
S5648	2" (48 mm)
